VILLAGE NEWS

COMMUNICATION BRINGS UNDERSTANDING

COMMUNITY SALT STORAGE PROJECT PROGRESSES

In a joint project that has been in the works since 2010, the Town, Village, School and Fire District have been collaborating on a shared community salt storage facility. In the May 2011 issue of the Hilton Village News, the public was updated on the decision to move ahead with construction of the new building. Since that time, the former bus garage that occupied the location of the purposed facility at 40 Grove Street, was demolished and a soil remediation project was undertaken.

proposed salt storage facility

school was exempt from local zoning regulations. Now that the Town of Parma owns the property, the Village Board will hold a hearing to change the zoning to bring the property into compliance.

- Due to the size of the proposed salt storage building, which is 72'x120', the Town of Parma needs to merge their properties at 100 Henry Street (The Town Highway Garage) and 40 Grove Street. The Village Board will consider their subdivision application at this joint hearing.

On November 13, 2012, the Village Board and Zoning Board of Appeals will hold a joint public hearing to consider the following items:

- An application from the Town of Parma to rezone 40 Grove Street from residential to industrial. This property was previously owned by the School District and used as a bus garage. During that period of time, the

The Village Board will consider their subdivision application at this joint hearing.

- The site plan for the project.

Pending the approval of the previous list, bids for construction will be accepted on November 19th. The Town will review bids at their December meeting. Construction is projected to begin by April 1st, 2013. The decision of a bid award is up to the Town Board. ■

FROM
MAYOR Joe Lee

When I became Mayor, one of my goals was to see the property at 40 Grove Street cleaned up. I am pleased to say, that through a team effort, that goal has been accomplished.

The joint objective of the Town, Village, School and Fire District working together is to save taxpayers' money by pooling our resources for improved efficiency in the services that we provide to our collective community. I feel we are doing that through this joint project.

Special recognition should be given to Janet Surridge, the Village Manager. She was

instrumental in creating the planning committee and the concept of the salt storage shed. She has kept the momentum of this project moving forward.

Talks are on-going for possible future cost-sharing projects such as a joint fuel island.

The Apple Fest Committee always welcomes volunteers. We are in need of people to help out in any way possible. Meetings are held once a month. Please call Linda at 392-7773 for more information.

The Rotary and Lions Club are also looking for more volunteers. Go to www.hiltonrotary.org or www.hiltonny.lionwap.org for more information.

EAGLE SCOUT PROJECT PROMOTES ENVIRONMENTAL AWARENESS

Michael Johnson, a Junior at Hilton High School has been a scout in the Boy Scouts of America since he was a child. After many years in the organization the

Michael Johnson stenciling a storm drain

Mayor Joe Lee observes the team.

The placard that was placed on some of the storm drains.

crowning achievement of every scout is displayed in a planned out production called the Eagle Scout Project. This project is the “finish line” in scouting and demonstrates the scouts abilities in leadership, responsibility, management and service to others.

For his Eagle Scout Project, Michael chose to promote environmental awareness regarding storm drains, with the purpose of decreasing pollution into Salmon Creek and Lake Ontario.

Michael led his project with a team of 7 helpers and 4 adult leaders. Work included marking 150 storm drains with a painted stencil or placard to alert the

public not to dump into storm drains. In addition, approximately 600 houses in the North-West quadrant of the

Front (L to R): Tyler Barwald, Phil Schuler, Michael Johnson, Jeffrey Russel, Jake Young, Hiram Johnson Back (L to R): Nicholas Forese, Brandon Goulette, Ed Young, Chuck DeClerk (Michael Wall and Nancy Johnson not pictured)

village, along West and Lake Avenues, had informational hangers placed on the front door of every home to educate people about stormwater pollution and what each household can do to decrease it. The project was completed with the help of Village Code Enforcement Officer, Mike Lissow and Monroe County Pure Waters Associate, Paul Sawyko.

Congratulations to Michael and his team, on the completion of his Eagle Scout project and for helping to reduce pollution in our local waters.

MAKE A DIFFERENCE DAY THE NATIONAL DAY TO HELP OTHERS

This year, on **October 27th**, from **8am until 12pm**, the Village, Town, School District, Lion's Club, Rotary, Knights of Columbus, Hilton-Parma Recreation and the Hilton-Parma-Hamlin Chamber of Commerce, along with local participating businesses and churches will team up to participate in the annual "Make a Difference Day". The day is a national event which encourages people to help others by participating in projects that benefit their local community and help people in need.

Some past projects from the "Make a Difference Day" include collecting a truck load of donated blankets and giving them to the needy, creating a garden for the Unionville Station senior citizens, helping

seniors get ready for winter by sealing their windows, cleaning up local nature trails, document shredding to prevent identity theft, mitten tree donations,

collecting food donations, having a blood drive and providing a community electronic recycling drop off site.

This year volunteers will participate in the following projects. First is a community bike collection project, where used bikes in any condition get

sent to a company that will refurbish them, free of charge and then give them to Rochester's most needy children. The schools and the Rotary will collect food to donate to the food shelf and the high school will provide a container to collect and recycle scrap metal from the community. Money from the recycled scrap will help to fund the senior bash next year. A blood drive will also be held and donations will be collected to help fund a scholarship for a local senior.

Interested in getting involved this year - or maybe next year? go to the website at...

Village Municipal Electric

check out the benefits to our plan.

The Village of Hilton offers residents a convenient alternative to other electric programs by providing our own local electric plan. Our plan has been successfully in place for 6 years. We offer both variable and fixed rates. The fixed rate for 2013 is \$.059/kw.

New customers are always welcome. Existing customers can remain on our plan year after year, hassle free, without having to do a thing. Services continue uninterrupted. For fixed rate customers who are currently enrolled and wish to switch to the variable rate plan, you have until December 31 to do so but will need to fill out a new application which

can be downloaded from the Village website.

To join, log on to our website at www.hiltonny.org and click on "services" then click on "electric" and fill out the enrollment form. Forms are also available at the Village Office.

Our staff is friendly and helpful and provides excellent customer service. We hope you will consider switching to the Village Municipal Electric program.

NEW SOFTWARE CHANGES LOOK OF UTILITY BILLS

In the Spring, the Village budgeted \$40,000 for new computer equipment and a much needed system-wide software upgrade, to keep current with changing technology. Now that the new software has been purchased and installed, bringing our system up to date, customers can expect to see a change in the look of their utility bills. New features including

enhanced graphics have been added to the bills. Among the enhancements, customers can expect to see a graph, showing utility usage and history.

Other changes will effect the office staff, where new tools and processes will help to streamline billing and other related computer tasks, making office work more efficient and easier.

COMMUNITY CENTER HANDICAP RAMP WALL REBUILT

The handicap ramp on the south end of the Community Center, facing West Avenue, has a new wall. Used by senior citizens 4 days a week, the highly used ramp, originally constructed in the mid 1980's, was in need of repair.

In the 2012 Village budget, money was set aside for the wall to be demolished and then re-built. Village crews did the demolition and excavation work. Following, contractor Gene Marciano was hired to re-enforce the footers and rebuild the wall, taking special care to match the new headstones and brick construction to the existing architecture of the building. The work took 2 weeks. The project, including materials, labor and contractor's fee, totaled \$12,500.00.

Congratulations to the Winners

of the 1st annual Walt Horylev

CIVIC BEAUTIFICATION Award

Joseph & Susan Fertitta
and
Tops Friendly Markets

Two recipients were chosen this year because of the major improvements they made within the central business district.

Joseph & Susan Fertitta were chosen because they improved 3 run down homes on South Avenue between Main Street and the bridge, they remodeled a home on Mariah Street, they renovated the former Crazy Egor's building on South Avenue, and are presently remodeling a large home on West Avenue.

Tops Friendly Markets was also chosen because of the extensive renovations they made in their new store, the former Furnal's Fresh Market.

The Village Board is appreciative of the efforts these two winners have made that improve the beauty of the village.

Both winners will be awarded a plaque and a certificate at the November Village Board meeting.

BE AN H₂O HERO THIS FALL

A message from The Stormwater Coalition of Monroe County and the Water Education Collaborative.

Larry
the H₂O Hero

Storm drains lead directly to nearby water bodies, so keeping lawn and yard care by-products and pool, fountain and spa discharges out of storm drains will reduce the amount of pollutants entering our local waters. As you perform your household chores this fall, following the guidance below will help improve and protect our local water quality, and make you an H₂O Hero!

Lawn and Yard Care

- ☑ Mulch your leaves to the extent possible. Mulching returns nutrients to the soil and saves the time and work needed to rake and dispose of leaves.
- ☑ Sweep up lawnmower clippings from your driveway and adjacent roadway to prevent them from entering storm drains.
- ☑ Never dispose of yard waste in a storm drain. Keeping storm drains clear of leaves and debris will help reduce localized flooding during rainfalls.
- ☑ NYS Law requires that fertilizer landing on impervious surfaces, such as driveways, roadways and sidewalks, be immediately cleaned up and applied to the lawn or containerized.
- ☑ NYS Law prohibits the application of fertilizer on lawns between December 1 and April 1.

Winterizing Pools, Fountains and Spas

- ☑ Wait for chlorine levels to be close to zero.

- ☑ Drain slowly to the lawn or other landscaped area of your property using a low volume pump or siphon. Do not drain down a driveway or to a storm sewer, stream, pond, or other natural water body.
- ☑ Add winter treatment chemicals after draining. This reduces the amount of chemicals needed and saves money. Mix the chemicals in your pool by using a skimmer pole and brush attachment, or similar method.

Household Hazardous Waste

Dispose of old or unwanted fertilizers, pesticides, pool chemicals and other household hazardous waste properly, such as at Monroe County's Ecopark. Call (585) 753-7600 (Option 3), or go to www.monroecounty.gov/hhw to schedule a drop-off appointment.

Be an H₂O Hero and remember,

*Only Rain
Down the Drain!*

GUIDE DOG PUPPY BEING RAISED IN HILTON

LIONS CLUB GIVES ASSISTANCE

Hilton resident, Amy Lissow is raising a puppy for the **Freedom Guide Dogs**, a non-profit organization that breeds, trains and places guide dogs for the blind and visually impaired. The program enlists volunteers through their "*Hometown Training Program*", who agree to raise a puppy for a period of 1 to 1 1/2 years.

On April 27th, Amy brought home a 10^{lb} pure-bred, black, male, Labrador Retriever, named Wally.

When Wally reaches 18 months of age he will return to the Freedom Guide Dogs facility where he will receive intensive training. If he passes his training, he will go on to be a service dog for the blind.

One incentive that helped Amy in her decision to participate in the hometown training program was the assistance she received from the **Hilton Lion's Club**. The club donated \$150 to Amy to supply Wally's dog crate, food holder and his first month of dog food. The Lion's Club, a charitable organization known for their work involving the visually impaired, was naturally interested in assisting.

Visit the Freedom Guide Dogs website for information regarding the program.

www.freedomguidedogs.org

The Historical Society has published and is selling a 2013 calendar featuring pictures and a history of the 12 cobblestone buildings in Parma. The calendar is available at the Parma Town Hall for \$15.00

GARBAGE COLLECTION & RECYCLING

WINTER in the Village

No Parking on Streets

Village law states that there shall be No parking on any roadway within the Village from midnight to 6am, November 1st through April 1st. Parked cars prevent proper snow removal. Violators will be towed at owner's expense.

Keep Snow out of Street

Plowing, shoveling or blowing snow into the street is illegal and dangerous! Snow piles compromise both driver and pedestrian safety. Please alert hired contractors to this law - it applies to everyone!

Keep kids Safe

Please prohibit children from playing on road-side snow banks and making tunnels in snow piles left in cul-de-sacs. Children are hidden from the view of snow and sidewalk plow operators and other motorists. Children waiting for the school bus should stay clear of the sidewalk during sidewalk plowing operations.
